

Kurt Stahl

Chief Operating Officer

kstahl@wursterconstruction.com

Narrative

In the late 90's Kurt found his true passion – construction of projects that improve people's lives and the community. By 2008 Kurt's experience in healthcare construction included the preconstruction efforts of the first integrated design-build project for the Army Corps of Engineers, San Antonio Military Medical Center (SAMMC.) Kurt then moved on to William P. Clements University Hospital.

With Wurster, Kurt will focus on project management operations that ensure client satisfaction and great relationships with the trade contractors. Kurt has an open book approach, an eye for planning and a commitment to the construction industry. He is a problem solver and is tireless in his efforts to do the best job possible.

Education & Training
